

## Software that Saves You Time and Money

### Your Finger on the Pulse of Your Department

VolparaEnterprise software is your window into your department's operations:

- Get updated ConstantQuality metrics every time a patient is imaged.
- Inform key staff via email alerts triggered by configurable Metric Alarms.
- Spend less time finding accreditation images.
- Gain a clearer understanding of your patients' characteristics and which doctors refer patients to you.
- Implement an easy, objective, and proven way to triage women to supplemental screening.
- Better assess equipment utilization, workflow, and the need for additional systems.

### Understand Your Patients Better

VolparaEnterprise software keeps you in touch with your patients. Because VolparaEnterprise software is rooted in Volpara's core understanding of breast anatomy and imaging technologies, it can help you make sure that:

- Each woman receives the right, personalized screening procedures.
- Fewer women will experience discomfort as a result of over-compression.
- Patient-specific x-ray dose is captured based on a woman's own breast composition.

### Ensure Your Staff is Operating at Peak Performance

VolparaEnterprise software lets you monitor the workflow efficiency and work quality of your staff by measuring:

- How long it takes to acquire images.
- How quickly patients are screened.
- How effectively technologists position patients.

### The Power of Objective Quality Metrics

VolparaEnterprise software helps you measure quality the right way:

- Fully automated trending of metrics over time saves time and money for you and your staff.
- Dashboards customized by job function get the right data to the right employees.
- Each imaging study has hundreds of data points tracked without the risk of human error.

### Join VolparaEnterprise Users Around the World

The analytical power of VolparaEnterprise software is unparalleled, and will grow over time. To see how it can help you better understand your department, contact your Volpara representative to schedule a live demonstration of VolparaEnterprise software.
